Grip Automatic Sanitizing Tunnel

Grip Automatic Sanitizing Tunnel (available in various sizes) helps in resisting viruses and germs entering into the premises as he / she passes through this automatic sanitizing tunnel, with the help of disinfecting chemicals.

Multiple Components are assembled in the tunnel which sprays a mist of disinfectant on the person walking through the tunnel.

care should be taken to walk slowly through the tunnel so that the entire body and clothes etc. get fully covered with the mist.

Applications:

Corporates, Offices, Hospitals/ R&D establishments, Government offices, Police/Essential Services Offices, Shopping Malls/Areas, Residential Complexes, Religious Places, Clinics and other areas.
